4 MODES

BRT Brightening care

Experience radiant, smooth skin with **Total Brightening Mode** – a non-invasive treatment that uses high-output, low-frequency stimulation to gently exfoliate dead skin cells and refine pores for a luminous glow.

RF Tightening care

Revitalize your skin with **high-frequency energy** that stimulates collagen for improved volume, brightness, and elasticity, leaving your complexion vibrant, firm, and radiant.

EP Electroporation care

Boost ingredient absorption with **Electroporation technology**, creating temporary channels to enhance hydration and leave your skin with a radiant, dewy glow.

EMS Microcurrent care

This mode gently **stimulates skin tissue and muscles** to visibly reduce facial sagging, restoring firmness and youthful elasticity for a lifted, rejuvenated appearance.

Integrated Vibration & LED Technology

Vibration Massage Care

Relax and rejuvenate your skin with vibration technology for a smoother, more radiant glow.

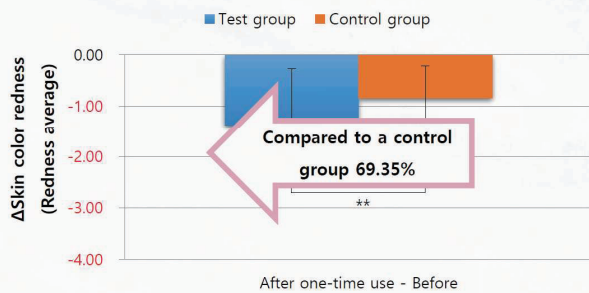

LED Care

Each mode features a dedicated LED color to enhance skincare benefits.

I was struggling with dry and less elastic skin due to using a heater in winter, and that's when I discovered the VERYAN Beauty Device!

It has four modes: brightening, tightening, absorption, and elasticity care, making it easy to address different skin concerns. I've been really happy with the results!

VERYAN is an easy-to-use device with voice guidance for 1 to 5-minute sessions.

It has brightening and exfoliation modes, and the cream and ampoule absorb quickly.

I use it 2-3 times a week, and my skin tone is brighter and smoother.

There are Many homecare devices these days, but VERYAN is the only one with so many features.

The 5-minute session allows for even use without overdoing any area, which I love.

It's amazing that I can do home care without spending much. I'll keep using it!

I used the EP mode daily for a week and the other modes every other day.

Since the EP mode only takes 5 minutes, I applied the ampoule daily.

The device head is small, so I could even use it on my eyebrow lines. After consistent use, I noticed the lines fading!
